## Doctor provides podiatry care with spa-tastic treatment

Dr. Jodi Politz first learned about podiatry working in her father's office as a child. Now, her mother, a registered nurse, and her father, a retired podiatrist, can typically be seen working in her office.

As an adult, the East Coast native attended the Dr. William M. Scholl College of Podiatric Medicine in Chicago and the VA Connecticut Healthcare System, an affiliate of the Yale Medical School. She held a private practice in Chicago for a year before heading to the warmer climate of Las Vegas in 1998.

By 2001, she opened Mountain Podiatry, 653 Town Center Drive, Suite 118, with a different look at conventional podiatry. Always a "spa kid" at heart, Dr. Politz wanted to treat her patients to comfort and relaxation along with superb medical care. Whirlpool treatments and toenail polish were perks most patients received to raise their spirits.

In April, Dr. Politz's dream of having a spa attachment came to fruition. Fützpah 118 treats patients, and outside clients alike, to pedicures (including pregnancy and sports), manicures and various massages, including reflexology and hot stone, with their health in mind — "a contemporary twist on the medical spa scene," she says.

At Fützpah 118, she knows everyone has high-quality care, and her diabetic patients can rest easy as they receive a medically sanitary pedicure. If there is a problem, Dr. Politz is only a step away.

Those who enjoy treatment by Dr. Politz are those who appreciate quality care in a relaxing environment. For an appointment, call 240-8038.
